Gas Combustion Unit for LNG Fueled vessel
"MECS-GCU"

Especially in the fields of Marine Equipment and Shipping, which are becoming more important on Economic growth in Asia including Singapore, it is regarded as essential to reduce the load on Environment.

VOLCANO proposes our "Environmental load reduction technology" in order to "Keep Sky Blue" and "Keep Sea Clean".

As fruits of VOLCANO's "Environmental load reduction technology", which is based on over 37 years' experiences for marine-use simultaneous mixed combustion Dual-Fuel(Gas/Oil), the products for LNG fueled vessels and "Gas Combustion Unit" called "MECS-GCU" are already supplied by VOLCANO.

VOLCANO welcomes the respective visitors at this Seminar and at Japan pavilion in the exhibition.
