URL for registration; <http://www.jsmea.or.jp/en/seminar/2017/myanmar/>

Especially in the fields of Marine Equipment and Shipping, which are becoming more important on Economic growth in Asia including Thailand, it is regarded as essential to reduce the load on Environment.

VOLCANO proposes its "Environmental load reduction technology" in order to "Keep Sky Blue" and to "Keep Sea Clean".

As fruits of VOLCANO's "Environmental load reduction technology", the products for LNG fueled vessel and "a completely closed system" for concentrating Waste Oil/Bilge are already supplied by VOLCANO. "A completely closed system" realizes "Zero Discharge to the Ocean". This system is called as Waste-Oil/Bilge Concentrator "BILCON-X".

VOLCANO welcomes the respective visitors especially around Southeast Asia including Myanmar at this seminar.

**Waste-Oil/Bilge Concentrator
