

VOLCANO participate the Exhibition, “Gastech Japan 2017”

VOLCANO participates the "JSMEA" booth in the exhibition “Gastech Japan 2017” held at Makuhari Messe, Japan, 4th to 7th April 2017. VOLCANO welcomes the respective visitors at JSMEA's exhibition booth “5405” in **Hall 6**.

“JSMEA”=“ Japan Ship Machinery and Equipment Association”
VOLCANO exhibits Information-Panel and Brochure-stand at JSMEA booth.

About Gastech Japan 2017

Venue: Makuhari Messe, Chiba city, Japan
Organizer: dmg::events global energy
URL <http://www.gastechsingapore.com/2017>

VOLCANO has the experience at Gas/Oil combination combustion in Industrial equipment category. Based on the experience in Industrial equipment, VOLCANO has records in Shipboard equipment category as a supplier of "Gas/Oil Combination burner" for Main-boiler/Auxiliary-boiler.

VOLCANO "SFFGII" is known as the Gas/Oil combination burner for Main-boiler of LNG Carriers.

In 2016, VOLCANO launched two new products for LNG fueled vessel, "Boil Off Gas Combustion Unit MECS-GCU" and "Gas/Oil combination burner Vignis-mini".

These products are already installed in the LNG fueled vessel projects, such as the Japanese first LNG fueled vessel, LNG fueled Pure Car Carriers and got good reputations from the customers.

VOLCANO will play a role on enhancing the LNG fuel use technology.
