Especially in the fields of Marine Equipment and Shipping, which are becoming more important on Economic growth in Asia including Taiwan, it is regarded as essential to reduce the load on Environment.

VOLCANO proposes its "Environmental load reduction technology" in order to "Keep Sky Blue" and "Keep Sea Clean".

As fruits of VOLCANO's "Environmental load reduction technology", which is based on over 37 years' experiences for marine use dual fuel(LNG/Oil) burners, the products for LNG fueled vessels and "Boil Off Gas Combustion Units called "MECS-GCU" are already supplied by VOLCANO.

VOLCANO welcomes the respective visitors at this forum.
